Modern Manufacturing in Western Greece

Beneficiary TOBEA

TOBEA is implementing an investment project under the action "Support for Productive Investments of the Region of Western Greece" of the "Western Greece 2021-2027" programme, co-funded by the European Union.

The aim of the investment is to modernise production and strengthen the competitiveness of the company. The project provides for the upgrading of building facilities, the procurement of modern machinery and vehicles for the needs of the company, as well as an increase in employment.
